Sport and physical activity

Target group

Ukrainian refugees, all ages

Description of activities

Suceava Sport for All Association is a regional body affiliated with the Romanian Association Sport for All. Located 50 kilometres from the border with Ukraine, the association has received and helped a large group of Ukrainian refugees, a large proportion of whom were in transit and some of whom have settled in Suceava. The association has used the local sport facilities for temporary accommodation for refugees, facilitated contacts with services, authorities and local citizens, and organised sport and recreational activities in the available spaces, organised by members of the association (who are physical education teachers).

In April 2022, UISP Nazionale from Italy organised an event in Suceava, Vivicitta, a 'race for peace' which usually happens throughout Italy. For this special edition of Vivicitta, UISP and Suceava Sport for All Association organised the race for and with refugees from Ukraine in Suceava. The UISP delegation also helped with aid and medicines. More about this event: <https://bit.ly/3erzPIC>
