Type of initiative

Sports activity

Target group

Ukrainian children and mothers

Description of activities

To help the social integration of Ukrainian refugees in our local community, we are offering free coaching and memberships to Ukrainian children and mothers living locally. The programme offers a safe and secure space for the children and their mothers to engage with other people and to distract them from the traumatic experiences they are carrying with them. The club works with some of Oxford's best tennis coaches.

The SportForUkraine.org platform is developed by
