Description of activities

European Football for Development Network (EFDN) is launching an urgent appeal to football clubs, leagues and associations across Europe to support an emergency 'Shelter Centre' in Lviv Stadium in Lviv, Ukraine. The need for safe refuge is becoming rapidly more desperate as terrified people flee war-torn towns and cities across the country.

However, with few safe havens remaining, Shakhtar, alongside local authorities, encouraged the Lviv Stadium to open its doors to those in need. During the More Than Football Action Weeks and on 6 April, the International Day of Sport for Development and Peace, we encouraged all European Professional football clubs to use the Football for Peace Flyer we created.
