**Type of initiative**

Sport activity and complementary support

**Target group**

Ukrainian children and mothers

**Description of activities**

The “Stand by Ukraine through sport” project offers integration support to children and mothers from Ukraine in Bucharest and in two transit centres near the Siret border, offering them access through sports and educational activities to a network of support and services for an autonomous life in Romania.

A team of specialists will deliver tailored support for children and mothers (evaluation, counselling, a Romanian language course, connection with legal and medical services, access to qualification courses, job access, school access, Parents’ School, etc.) to increase their capacity to adapt and connect to the local community and to build a path of autonomy.
